- ❑ Prepare, advise and assist clients to assert their rights within the criminal justice, courts and mental health systems, including preparation for testifying about or sharing their stories in the community.
- ❑ Coordinate treatment and reentry planning with other community providers to ensure goal-directed, collaborative care; advocate with service providers as needed.
- ❑ Advise clients on self-help strategies and methods to connect with peer-based recovery supports.

- ❑ Provide crisis intervention and follow-up.
- ❑ Document all client activities in progress notes; manage files; and complete database entry to measure program outcomes.
- ❑ Provide administrative support to the team by collecting medical records; contacting facilities to schedule calls; locating clients that are difficult to reach; and maintaining and updating training and outreach materials.
- ❑ Participate in outreach and training activities to educate other service providers and community stakeholders about the prevalence of victimization among incarcerated individuals and the special needs of this population, and advocate for a seamless service system.
